

**62nd Meeting  
of the  
Civil GPS Service Interface Committee**

Hyatt Regency Denver at Colorado Convention Center  
19-20 September 2022

# GPS Civil Users Need A Means For:

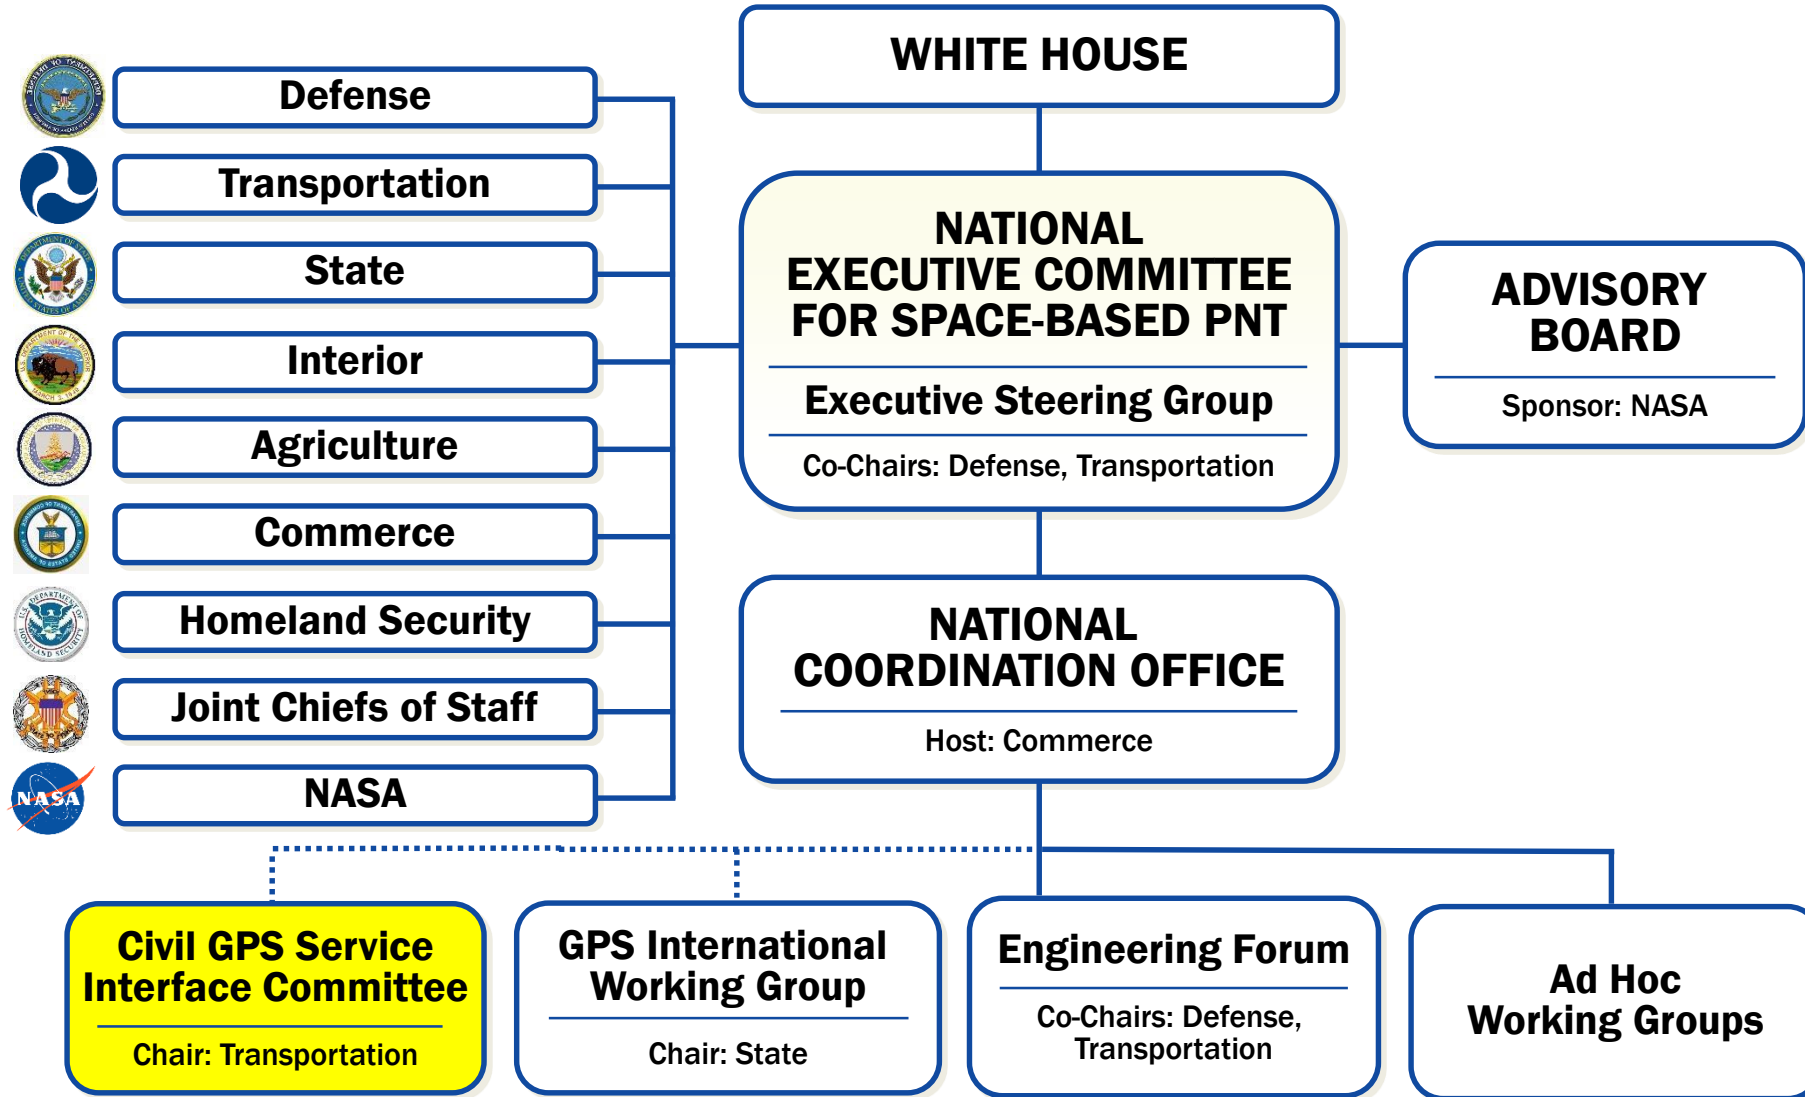

- Receiving system information (system status, health and modernization plans).
- Providing civil user input/feedback (feedback on adequacy of signals for user needs, new applications).
- Global participation.
- Participating in an interference/outage reporting mechanism is needed (process for interference detection and mitigation).
- Having an advocate (a means by which system users can be represented in all parts of the system planning and operation).

# CGSIC Charter

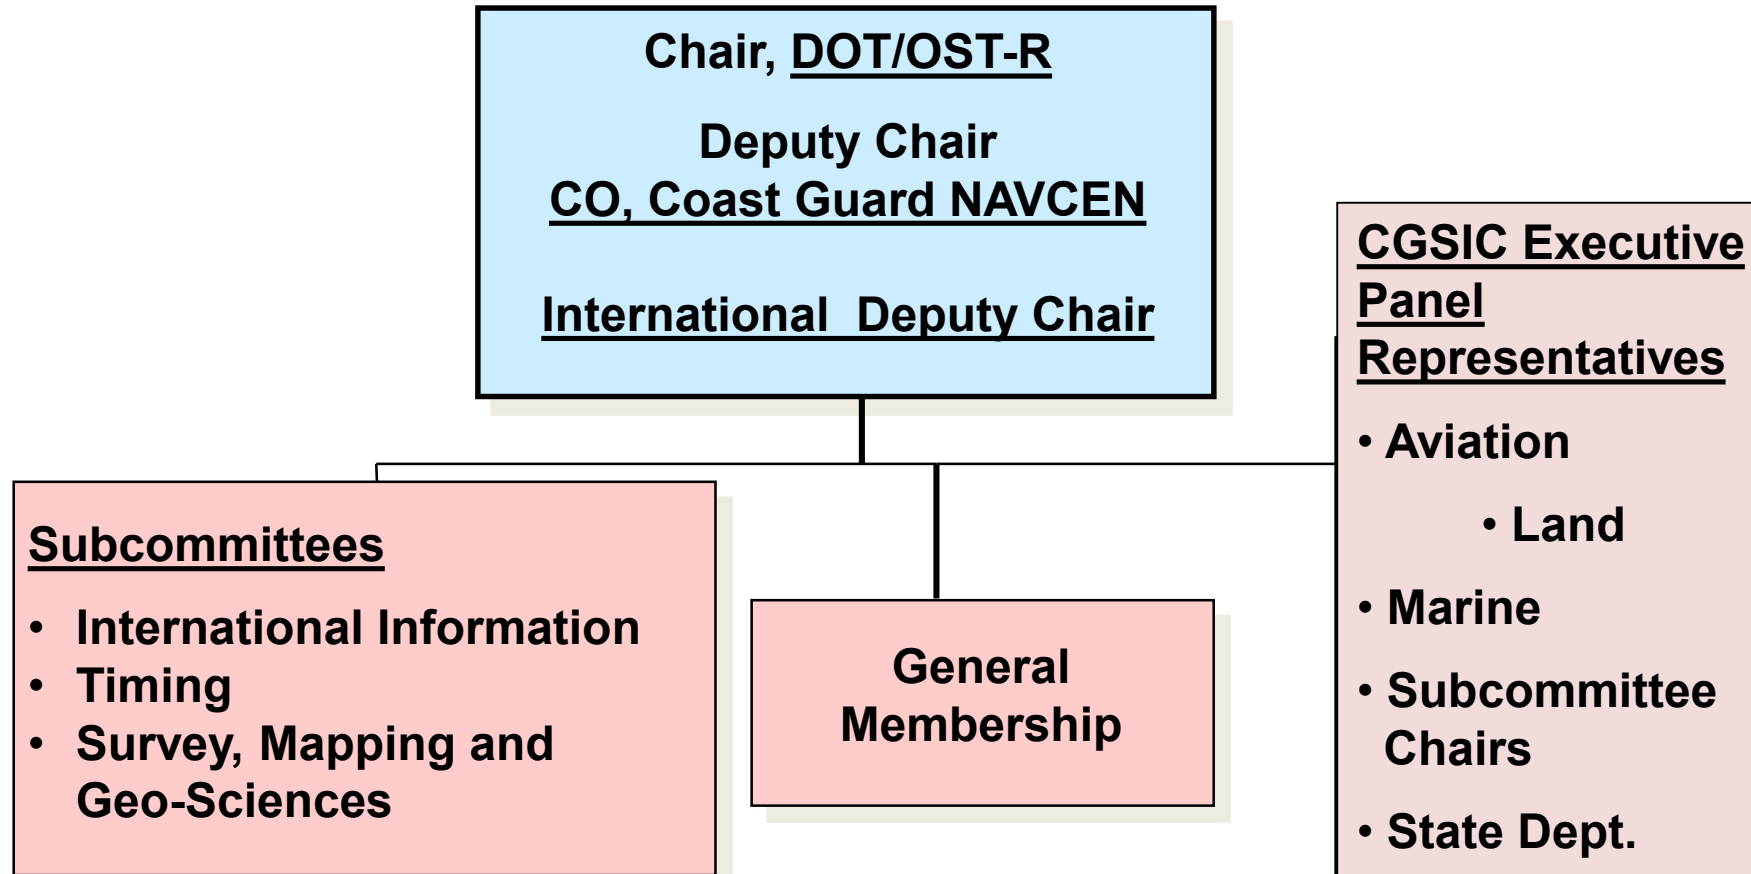

Civil GPS Service Interface Committee was chartered in 1986 to be that forum.

- Recognized worldwide forum for effective interaction between all civil GPS users and the U.S. GPS authorities.
- Established and chartered to identify civil GPS user needs (e.g. positioning, navigation, and timing).
- Exchange information concerning GPS with the world-wide civil user community.
- Reports activities to the Office of the Assistant Secretary for Research and Technology.
